- Technical factors / pricing factors rated the following: Technical / Price = 70/30.
- Acceptance of HQ SACT General Terms and Conditions.
- Proposals offering a core services provider arrangement including provision of all labour categories with well-qualified key personnel will be considered with priority. Only if a single core services provider solution is unavailable will bids be considered for split award.

16. Proposal Clarifications

During the entire evaluation process HQ SACT reserves the right to discuss any bid with the order to clarify what is offered and interpretation of language within the bid, to resolve in potential areas of non-compliance.

17. Award

HQ SACT intends to award a firm fixed price contract(s) to the Offeror(s) whose proposal(s) represents the best overall value to NATO. Partial Awards are not authorised. HQ SACT will collect information from references provided by the Offeror in regard to its past performance. Contractors must provide authorization to contact references. HQ SACT reserves the right to negotiate minor deviations to the listed General Terms and Conditions to this IFIB.

18. Communications

All communication related to this IFIB, between a prospective bidder and HQ SACT shall only be through the nominated HQ SACT Contracting Officer. Designated contracting staff shall assist the HQ SACT Contracting Officer in the administrative process. There shall be no contact with other HQ SACT personnel in regards to this IFIB. Such adherence shall ensure Fair and Open Competition with equal consideration and competitive footing leverage to all interested parties.

19. Organizational Conflict of Interest

Organizational conflicts of interest may occur when factors create an actual or potential conflict of interest on an instant contract, or when the nature of the work performed on the instant contract creates an actual or potential conflict of interest on a future acquisition. In the latter case, some restrictions on future activities of the contractor may result.

This Enclosure is designed to assist the respective company provide HQ SACT with all necessary documents/information required. For clarification, please refer to Bidding instructions in part 1 of subject solicitation.

IFIB-ACT-SACT-22-131

Contractors must implement a program to monitor, detect, and mitigate/remediate organizational conflicts of interest. While Contracting Officers retain authority to approve mitigation or remediation measures once organizational conflicts of interest are identified, the primary burden of detecting, identifying and disclosing organizational conflicts of interest to the contracting officer and proposing suitable mitigation or remediation measures falls on the contractor.

The two underlying principles regarding organizational conflicts of interest are preventing the existence of conflicting roles that might bias a contractor's judgment; and preventing unfair competitive advantage.

An unfair competitive advantage exists where a contractor competing for award of any Federal contract possesses:

Proprietary information that was obtained from a NATO official, staff member, or NATO contractor without proper authorization; or

Information that is relevant to the contract but is not available to all competitors, where such information would assist that contractor in obtaining the contract. Contracting officers and potential bidders shall analyze planned acquisitions in order to:

Identify and evaluate potential organizational conflicts of interest as early in the acquisition process as possible; and

Avoid, neutralize, mitigate significant potential conflicts before contract award, where possible, or post award when the organizational conflict of interest is not revealed prior to award.

The contracting officer shall award the contract to the apparent successful offeror unless a conflict of interest is determined to exist that cannot be avoided or mitigated. Before determining to withhold award based on conflict of interest considerations, the contracting officer shall notify the contractor, provide the reasons therefor, and allow the contractor a reasonable opportunity to respond. If the contracting officer finds that it is in the best interest of NATO to award the contract notwithstanding a conflict of interest, the Contracting Officer will issue a waiver and disclose the award and the existence of the organizational conflict of interest to the Financial Controller. The waiver request and decision shall be included in the contract file.

Obligations of the Parties.

When a Contractor or Prospective Contractor becomes aware of the existence or potential for an organizational conflict of interest, the Contractor is obligated to disclose the existence, nature, and supporting evidence of the conflict. Contractors or

This Enclosure is designed to assist the respective company provide HQ SACT with all necessary documents/information required. For clarification, please refer to Bidding instructions in part 1 of subject solicitation.

IFIB-ACT-SACT-22-131

Prospective Contractors will be deemed aware of the existence or potential for an organizational conflict of interest when the Contractor or Prospective Contractor actually knows or reasonably should know of the existence of the actual or potential organizational conflict of interest.

If the Contracting Officer becomes reasonably aware that the award of a contract will restrict the contractor's eligibility for future contract work, the Contracting Officer will disclose this fact in writing to the Contractor prior to the award, where practicable, and will permit the Contractor or prospective Contractor 7 days to make an election regarding award, discontinuing performance, or submitting an OCI mitigation plan for the Contracting Officer's approval. The sufficiency of the OCI mitigation plan is in the Contracting Officer's sole discretion.

Enclosure 6 (Statement of Work)

STATEMENT OF WORK

1. Introduction

Allied Command Transformation (ACT) is NATO's leading agent for change: driving, facilitating, and advocating for the continuous improvement of capabilities and capacity to maintain and enhance the military relevance and effectiveness of the NATO Alliance.

On behalf of SACT, **DCOS Resources Management (RM)**, specifically the Base Support branch (BS), is responsible for the direction, coordination, planning, and execution of HQ infrastructure maintenance and upkeep, renovation and reconfiguration, and modernization and adaptation in order to keep pace with evolving changes in organizational mission and focus.

In order to better anticipate change and meet the demands associated with organizational growth, Base Support is seeking a Facilities Planner dedicated to the task of incorporating stakeholder inputs to develop a longer range plan for constructing the HQ of the future.

2. Background

The scope of work for the development and implementation of the RM Base Support Facilities Planner will include requirement elicitation in collaboration with stakeholders, the full spectrum of programme and project management as stipulated in the NATO governance model for delivery of common funded capabilities. This includes support to architecture development and engagement with Host Nation engineering services and civilian contractors.

The main output is the delivery of an HQ SACT infrastructure assessment, the development of an enduring facilities lifecycle management program, and the delivery of a Capital Improvement Plan (CIP) based on the results of elicited requirements and coordination with the broad array of stakeholders in the NATO Command Structure (NCS) and NATO Force Structure (NFS)

3. Type of Contract and Period of Performance

Firm Fixed Price Services Contract in accordance with the General Terms and Conditions: As such, it is a Level of Effort contract with a maximum limit or fraction thereof as set forth in the Statement of Work. All employer responsibilities for the Contractor personnel performing under this Contract shall lie with the Contractor.

3.1 Period of Performance.

Base period of 01 JAN 2023 - 31 DEC 2023. With four (4) options, Option Period One: 01 JAN 2024 - 31 DEC 2024; Option Period Two: 01 JAN 2025 - 31 Dec 2025; Option Period Three: 01 JAN 2026 - 31 Dec 2026; Option Period Four: 01 JAN 2027 - 31 Dec 2027.

Option periods shall be exercised at the sole discretion of the HQ SACT Contracting Officer, based on satisfactory work performance, available funding, and on-going/evolving requirements

3.2 Level of Effort.

HQ SACT is seeking one (1) candidate for Facilities Planner. One workforce-year per annum with 1800 hours of service to be rendered against the labour category. Workforce-hours are further defined in the General Terms and Conditions.

3.3 Surge Capability.

A surge capability requirement is included to have a contract vehicle in place should emerging circumstances require a quick and temporary increase in contractor support (LOE or Deliverable) to meet new requirements within the scope of the existing Statement of Work. The Supplier shall be prepared to provide support services per labour category described above. The contractor shall be prepared to evaluate requirements and submit a price proposal for any new in scope requirement for consideration by HQ SACT. Surge proposals will be evaluated by the Contracting Officer for fair and reasonable pricing and should be developed based upon the same pricing structure as the original contract proposal. The rate for surge effort shall not exceed the base/option year rate. Surge requirements will be incorporated by formal contract modification. Requests for pricing are made on a non-committal basis and do not constitute a formal commitment by HQ SACT to contract for additional work; supplier will not be reimbursed costs for preparing price proposals or other related expenses in response to a surge request. HQ SACT surge efforts will not exceed 80% of the annual contract value or 80% of the cumulative contract value. Requests to surge from other organisations outside of HQ SACT are not counted against the HQ SACT when calculating the surge tolerances.

4. Place of Performance

HQ SACT shall serve as the habitual residence for performance under this contract. The Contractor is expected to perform the majority of the required work at HQ SACT in Norfolk, Virginia or in alternate locations as per travel requirements at locations specified by the Contracting Officer's Technical

Representative (COTR). It is anticipated that there will be approximately 2 trips per year, for approximately 10 days in duration per trip. NATO travel regulations and reimbursements are covered in Chapter 10 of the approved version of the Allied Command Transformation (ACT) Financial Manual, and are available at: <http://www.act.nato.int/forms-contractor-travel>. The COTR and Contracting Officer must approve trips and per diem in advance of all travel.

5. Partial Bidding and Teaming Arrangements

Partial bidding is not allowed.

6. Labour Category: Facilities Planner

a Tasking

- The main task is to conduct proper long term planning in support of project management as it relates to HQ facilities improvements, renovations, reconfigurations, and expansions.
- Convert user requirements into Engineering information, and define them if required into products (SOW, Technical Specifications...) that can be used by HN and/or contracted companies to produce the desired outcomes.
- Evaluate, monitor and guide all configuration changes.
- Manage all non-compliances during construction and warranty period from the user standpoint
- Provide quality assurance not only during construction, but also during definition process, and warranty period.
- Coordinate with HN and contractors in order to assure that works are carried out in accordance with specifications.
- Report and record any non-compliance on the spot.
- Develop and maintain programme schedules taking into account all dependencies to other projects impacting the HQ, including CIS and Security as well as any potential naval installation impacts.
- Develop interdisciplinary Risk Management Strategy in order to identify risks / implications for HQ SACT and propose mitigation measures to counter / minimize these.
- Support cost-benefit analysis of proposals and changes, not only linked to material/financial scales.
- Manage expectations against project progress.
- Prepare reports and presentations in order to enable informed decision making.
- Collaborate with internal and external stakeholders at all levels, to include coordinating with ACT Programme Directors and the Programme Management Offices (PMO) to ensure dependencies between programmes are understood and taken into consideration.
- Maintain close working relationships with Programme Directors and the PMO and to ensure coherent delivery of capacity.

- Coordinate the development of a Capital Improvement Plan (CIP), in the context of the ACT-led effort to deliver a fit-for-purpose, modern HQ.
- Ensure that, in co-ordination with other internal and external stakeholders, all necessary data is kept up to date in support of the management and monitoring of programmes throughout their life cycle.

b Essential Qualifications

- Nationality of one of the NATO member countries.
- At a minimum, a four year bachelor's University degree.
- Experience in facilities/infrastructure planning, project management in the past ten (10) years within a complex and dynamic environment. Familiarity with HN infrastructure code/regulations governing safety, construction standards, maintenance, habitability, and energy efficiency.
- Experience in the past ten (10) years in the field of requirements engineering, to include elicitation, capture, definition, development, prioritisation and management.
- NATO Secret Security Clearance or national equivalent.
- Demonstrated proficiency in English as defined in STANAG 6001 (Standardized Linguistic Profile (SLP) 4444 - Listening, Speaking, Reading and Writing) or equivalent.

c Desired Attributes/Competencies

- **Personal Attributes:** The duties require clarity of thought, sound consistent judgment, good inter personal and communication skills, a creative approach to bridge the challenge of the diverse and varying nationalities within the NATO enterprise to include engineering standards and business practices as well as maintenance related to NSIP projects which, in addition, may come with inherent political ramifications and sensitivities.
- **Professional Contacts:** The ability to professionally interact daily with internal contacts with ACT divisions and National Military Representatives and external contacts with national authorities in order to exchange information; coordinate actions; to provide reporting on any related project issues.
- The ability to professionally interact daily with contacts both at the managerial and technical level with infrastructure project managers and engineering staff at Host Nation, ACT, Architecture and Engineering Consultants and Industry.

7. Performance Requirements and Reporting

The Contracting Officer shall assign a Contracting Officer's Technical Representative (COTR). The COTR shall provide direction, guidance, and support information as needed for all technical and content areas of the SOW.

The COTR shall:

- Resolve outstanding disputes, problems, deficiencies, and/or questions on the technical aspects of the SOW.

IFIB-ACT-SACT-22-131

- Review (and approve) all Contractor duties for completeness and accuracy.
- Review the Contractor's work at a minimum of monthly, or more often if needed.

The COTR's written approval of work reported and deliverables submitted is mandatory for Contractor invoices to be successfully processed. The COTR shall receive a letter of appointment from the Contracting Officer that describes in detail his roles and responsibilities to which he shall sign formal acceptance.

8. Contract Reporting

The Contractor shall submit a monthly report to the COTR and the Contracting Officer, detailing progress on the SOW for the reporting period. The report shall include, but not be limited to, the following information:

- Summary of work for the reporting period.
- Contract hours expended showing a comparison with budgeted hours.
- Current or anticipated problems/deficiencies and recommended solutions.

The COTR may amend the reporting requirements to receive alternate/additional data and information on a more frequent or less frequent basis, and to request other reports that detail designated aspects of the work or methods to remedy problems and deficiencies. The Contracting Officer shall receive a minimum of a monthly report, regardless of COTR changes. However, note that the report is NOT a deliverable subject to acceptance. The Contractor is expected to work closely with other team members, SMEs, and designated HQ SACT personnel. Consequently, the Contractor is expected to promptly address all identified problems and deficiencies, providing the COTR with written information on how the problem shall be corrected and any impact to on-going work.

9. Proof of Past Performance

The Contractor is to provide a minimum of one (1) past performance citations (for work within the past ten years) to show that work has been successfully completed which is similar to the requirements outlined in this SOW. References may be submitted in lieu of past performance citations. The citations/references shall include the following information at a minimum:

- Summary of work performed showing that it is similar to or directly relates to this SOW in size, scope and value;
- Provide sample of previous cradle-to-grave project management effort;
- Status of work (i.e. on-going, complete);
- Date of work performance;
- Name of client/reference;
- Complete contact information for client/reference; and

10. Contractor Technical Evaluation / Contractor Supervision

Contractor personnel shall report to and receive technical guidance from the COTR while executing this SOW. The COTR can recommend to the Contracting Officer (who has final authority) that the contract/SOW be amended, extended, or cancelled for evolving requirements, new tasking, and/or technical non-performance. The COTR shall provide direction, guidance, access to subject matter experts (SMEs) and support information, as needed (within scope). The COTR shall:

- Resolve outstanding disputes, problems, deficiencies, and/or questions on the technical aspects of the SOW;
- Review (and approve) all contractor tasking and deliverables for completeness and accuracy.

The COTR shall review the Contractor's work at regular intervals as required. The COTR's written approval of work reported and deliverables submitted is mandatory for Contractor invoices to be successfully processed

11. Contract Reporting

The Contractor shall submit a monthly report to the COTR and the Contracting Officer, detailing progress on the SOW for the reporting period. The report shall include, but not be limited to, the following information:

- Summary of work (by contractor position) for tasking and deliverables for the reporting period;
- Contract hours expended showing a comparison with budgeted hours; and
- Current or anticipated problems/deficiencies and recommended solution.

The COTR may amend the reporting requirements to receive alternate and/or additional data and information on a more frequent or less frequent basis, and may request other reports that detail designated aspects of the work or methods to remedy problems and deficiencies. The Contracting Officer shall receive a minimum of a monthly report, regardless of COTR changes. However, note that the report is NOT a deliverable subject to acceptance. The Contractor is expected to work closely with ACT personnel, ACO staff, the user community and SMEs. Consequently, the Contractor is expected to promptly address all identified problems and deficiencies, providing the COTR with written information on how problem shall be corrected and any impact to on-going work
